DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by U. S. Patent No. 5,826,268 to Schaefer et al.

As per claim 1, Schaefer et al. disclose a cache module configured an identification module configured and a refresh module configured (see at least the abstract and col. 4, lines 1-40).

Allowable Subject Matter

Claims 11-30 are allowed.

Claims 2-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
